

Furkan Özen

Android Developer | Kotlin

Maltepe, Istanbul • +90 542 670 93 04 • furkanozendev@gmail.com • linkedin.com/in/furkanozendev • furkanozen.com

Android Engineer with 4 years of experience building and evolving large-scale Android systems, with a focus on Kotlin, Jetpack Compose, and long-term architectural migrations.

WORK EXPERIENCE

Papara — Android Developer | Apr 2022 – Dec 2025

*Large-scale fintech platform serving millions of active users. Tech Stack: **Kotlin, Compose, MVVM, Clean Architecture.***

- Worked across core domains including **Card, Core, Onboarding, and Investment**, delivering production features in close collaboration with product, backend, and design teams.
- **Owned and designed complex Card-domain features**, including **VoiceCard** (Bluetooth + Text-to-Speech accessibility support) and **SketchMyCard**, a custom Android Canvas-based card design experience.
- Played a key role in **Jetpack Compose adoption**, building reusable UI components and contributing to modern architecture patterns.
- Participated in **modularization and refactoring initiatives**, supporting Clean Architecture and long-term maintainability across product areas.
- Improved feature reliability through **unit testing (JUnit, MockK)** and **end-to-end flow testing (Maestro)**; actively involved in code reviews and engineering best practices.

Papara — Android Developer — Intern | Feb 2022 – Apr 2022

- Contributed to onboarding and KYC flows and assisted with early architectural migration efforts before transitioning to full-time.
-

PROJECTS

Personal Portfolio | furkanozen.com | **Compose Multiplatform for Web**

- A technical showcase built entirely with Compose, demonstrating the capability of Kotlin to drive responsive web UIs beyond mobile.

NexKMP | github.com/furkanozendev | **Kotlin Multiplatform Starter**

- Built a modular KMP infrastructure with a custom Kotlin Compiler Plugin showcasing IR transformations, annotation-driven code generation, and end-to-end usage across Android, iOS targets.
-

SKILLS

Kotlin, Jetpack Compose, Clean Architecture, MVVM/UDF, Coroutines & Flow, Modularization, Hilt, Koin, Retrofit, JUnit, MockK, Maestro

EDUCATION

B.Sc. in Management Information Systems | Sakarya University | 2018 - 2024
